JOSIAH TURNER, Jr., EDITOR.

FUTURE POLITICS OF THE SOUTH.

The readiness with which the three Southern States that last year stood out against negro suffrage reconstruction now yield to the demands of Congress, is doubtless wise under the circumstances; but it proves nothing as to the future political action of the South. This apparent triumph of the Radical policy is probably the immediate precursor of its downfall. The chief aim of the Republican party since the close of the war, has been to prevent the Southern States acting in political co-operation with the Northern Democrats.—The elective franchise was conferred upon the negroes, in plain violation of the Constitution, in the expectation that the negro vote would be universally anti Democratic, and that it would be sufficient to turn the scale against the Democratic party in the South, making that section the sure ally of the Republicans, as, in former times, it was of the Democrats. The acceptance of the situation by which Virginia, Mississippi, and Texas will regain their place in the Union, will restore to the South its freedom of action, and put a speedy end to to the hopes of the Republican party.

It will soon become apparent that the fifteenth amendment, on which the Republicans rely to rivet their policy, will bring them no advantage. In the first place, even with the extorted ratifications of the reconstructed States, the amendment is not likely to be adopted. And even if it should be, extorted ratifications are invalid; the Federal government having no right to dictate the action of States on a constitutional amendment. If, counting these bogus ratifications, the whole number *should* amount to three fourths (which is contrary to all probability,) and the bogus ratifications should be held good, the pretended amendment would nevertheless be void, because it was never proposed by two thirds of Congress in a constitutional sense. If it has not been constitutionally submitted, no number even of valid ratifications could make it a part of the Constitution. The fifteenth amendment is intended to secure the permanence of negro suffrage if the Democratic party should come into power; but its futility for this purpose is apparent on the slightest examination. Suppose that Kentucky, for example, should continue to exclude negroes from the ballot box after the fifteenth amendment had been declared ratified; how could she be compelled to admit them? A Democratic Congress would not extend to her Senators and Representatives for such a cause, nor would it pass or continue laws for punishing the State officers who refused to receive the negro votes. If, for a while, the House should be Democratic and the Senate Republican, so that such laws could not be repealed, the penalties could not be inflicted, for the reason that the offenders would have to be tried by a jury of the vicinage, and there could not be got into the jury-box twelve men who would agree to punish their fellow-citizens for such an offence. After the admission of three remaining States, military government will be abolished, and there can be no further trials by military commissions. The fifteen amendment is hardly worth the support of its friends or the opposition of its enemies; for, even if it should be ratified, it will nevertheless be null and nugatory.

We do not judge it probable, however, that the suffrage will be withdrawn from the negroes in the reconstructed States. If, as seems likely, the negroes should be influenced by the common public sentiment of their section, the object for which they were enfranchised will be defeated without any necessity for disturbing the new order of things. The withdrawal of the army and Freedmen's Bureau deprives the Republicans of their machinery for controlling the negro vote. While the negroes were fed by the Bureau they were willing to exchange votes for rations; but hereafter they will be under the control of local influences. Their interests will always be identical with the interests of their section; and when questions of finance and taxation loom up into prominence, as they will as soon as all the States are readmitted, the negroes will be found voting steadily with the Democratic party.

The South will always be an exporting community, and therefore a strong free-trade community. The cotton crop is too abundant for more than a small fraction of it to find a domestic market; and it is so obviously for the advantage of those who send products abroad for a market to have the tariff abolished, that no protectionist sophistry can confuse even the Southern negroes. The tariff is cried up to the Northern farmers on the ground that, by building up manufacturers in their neighborhood, it supplies them with a home market. But a home market for the Southern cotton crop is an absurdity. The bulk of it will always be exported, and the price of the small part that is consumed at home will be governed by the price abroad.—The stupidest negro on a Southern plantation can see, as clearly as anybody sees, that the tariff increases the price of the goods he has occasion to buy, and that his wages or his share of the crop would be worth more to him if the tariff were abolished. The protectionists try to befool the Northern farmer by telling him if the tariff compels him to pay more for what he has to buy, it compensates him to get more for what he has to sell. But the chief article which the South has to sell must necessarily be sold in a foreign market, and its producers get no part of the pretended compensation for the high prices caused by the tariff. Light taxes and cheap goods are for the interest of the negroes, as they are for the interest of everybody; and when economical questions come uppermost in politics, the prevailing sentiment of the South will be so decisively on the Democratic side that the negroes cannot fail to share it. The fact that the attention of all classes in the South is so largely given to industrial recuperation, is an indication that that section will enter very readily into the economical politics of the new era; and its interests must plant it firmly on the Democratic side. The Republicans, in their revolutionary reconstruction, will find that they "went forth for wool and came back shorn;" that, instead of making the Southern States allies of their party, they have made them more certainly its enemies.—*N. Y. World.*

DOTY'S WASHING MACHINE,
LATELY MUCH IMPROVED,
AND THE NEW
UNIVERSAL CLOTHES WRINGER.
Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.
Those who have used them give testimony as follows:
"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*
"It is worth one dollar a week in any family."—*N. Y. Tribune.*
"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*
"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Ballows.*
"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*
"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*
"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it, one laundress is dispensed with."—*Wm. M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.

Send the retail price Washer $14, Extra Wringer $9, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.
No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.
Canvassers with exclusive right of sale make money fast selling them.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

WEDNESDAY, SEPTEMBER 15, 1869.

TREASURER JENKINS' LETTER, &c.

We take pleasure in giving place to the letter of explanation of Mr. Treasurer Jenkins, in reference to the Chatham Railroad Company's Bonds, and we call attention to it. We are glad to have this explanation, and we do not doubt the public will be.

But we have a few words to add in this behalf, to what we said in our paper of Monday last. That article was preliminary only, and has elicited just the facts we wanted to learn. It will be observed that we did not say, as Mr. Jenkins says we did, that the bonds were issued to the Company "*notwithstanding* a decision of the Supreme Court forbidding the same." We said nothing like it. Here is what we said:

"It will be remembered that the Supreme Court decided that the appropriation for the Chatham Railroad Company made by the Legislature after the adoption of the Constitution was *absolutely void*, and that the Treasurer was prohibited by injunction from issuing the bonds of the State in payment of the same, and the Chatham Company was prohibited and enjoined from receiving such bonds. We learn that these bonds *were issued and have been sold or disposed of* in the New York market.

What has Mr. Treasurer Jenkins to say to this? What explanation can he give of the matter?

What do the people think of such a proceeding? The "Ring" won't down at the bidding of the Supreme Court! It moves on giant like sweeping all before it. How long, O! Lord!

We will tell the people more about this in a day or two."

Now, it is manifest we did not say the bonds were issued in the face of the decision of the Court. We referred, and intentionally, in general terms, to "Chatham Railroad bonds." We had learned the bonds were issued, and we wanted to know all about how the matter stands and stood, and we have successfully elicited valuable information for us and the public.

The article we wrote and published was strictly true, so far as it purported to state facts. The Supreme Court had decided the appropriation *void*, as well under the *first* as the *last* act, and void under *both* acts. But above this; the main and important averment we made was true, that was, the Chatham Railroad bonds had been issued. The Treasurer says, he delivered $2,600,000 of bonds to the Company, and he says the Court has decided the bonds were void.

We confess we were astonished to learn that the bonds had been issued; we did not learn this before last Saturday, and we don't think the public knew it. We have inquired about the suit against the Chatham Railroad Company, in reference to the validity of the appropriation, and find that not a word was said in all that suit about the bonds having been issued; the issuing of them was a secret, kept from us and the public, notwithstanding a grave law suit about this very matter. We think this strange indeed, and the people, we doubt not, will think so, too. Why was it not mentioned in the *official organ* of the State that these bonds were issued? Why was this fact not mentioned in the law-suit about the matter? Why was not so important a fact as the issue of $2,000,000 of the bonds of the State not mentioned? We would be glad to have these questions answered—the people would like to see the answer.

The Treasurer actually says, that the bonds were issued "before any injunction was even talked of," but, however true this may be, Mr. Treasurer, they were not issued before their *solidity was questioned*, and you were put on your guard. The ground was taken in the Legislature, and warmly debated at great length, and on more occasions than one; and, besides, after the passage of the act, this appropriation was discussed, and very ably, too, according to our best recollection, in the Wilmington *Journal*, and the legal opinions of able Lawyers in this city were taken as to the validity of the bonds. If an injunction was not "talked of" the *bonds were questioned*.

But there is another feature about this matter we would like to know something about. The act under which the $2,000,000 bonds were issued, was ratified on the 15th *day of August*, 1868—on the 16th *day of October*, next thereafter, the bonds were delivered to the Company. How did it happen that these bonds were delivered in such a hurry, Mr. Treasurer? Can you explain that? In the first place, the plates for the bonds had to be prepared in New York; this was no trifling job; they had first to be ordered, and some correspondence had, in regard to price of work, &c., then to be printed. All this took up about a month. Then you had to sign each of the bonds, and the Governor had to sign them, too; and the coupons you had also to sign. This alone would take about a month. Is this not true? Now, we ask you, how did you do this job in such a hurry? and if you did it in the *regular* course of your official business? You knew these bonds were questioned, did you not? You worked day and night to get them out, in such a hurry, did you not? Did the Governor not work day and night, too, and did he not know, also, that the validity of the bonds were questioned? Just as sure, Mr. Treasurer, as that you and the Governor live, just as sure, you each knew that these things were true,

Another thing: Did not the President of the Chatham Railroad Company make it worth your while for being in *such a hurry?* But we will reserve further interrogatories on this point to some future occasion.

Now, Mr. Treasurer, we have not said what we have to wound your feelings. We have written it in the interest of the people of North Carolina, and thus we intend to do, and continue doing, at any peril and at all hazards; and we are not to be deterred by any display of canes, or threats; do you understand that?

We repeat, at least a large part of the bonds have been sold or disposed of in the New York markets, and large sums of money have been realized upon them. Is there no way to secure this money for the benefit of the innocent holders of these bonds?—What do you say, Mr. Treasurer? Are not you and "the Ring" very much concerned about the *honor and faith of the State* in this matter?

What do the people of North Carolina think of these officers "in high places?"—Just think of $2,000,000 of your bonds, with your Governor's (no, not *your Governor's*) signature to each one of them! The purity and validity of these bonds questioned, too, at the time they were issued, and while the bills under which they were issued were pending before the Legislature! More; these bonds were issued in a hurry, and for what? O, humiliated North Carolinians! *You know!* Is there no relief; no help, for this outraged and downtrodden people?

What shall be said of the Legislature?—The Treasurer, the friend of the Legislature (if it has any) tells you and the world, that the astounding sums appropriated by the Legislature of $9,800,000, were void! And still this leaves appropriations to the enormous amount of $16,300,000! What do you think of that? Will not "the Ring" kill the Treasurer for making such an exhibit of figures to its injury, and that of the Legislature? We trust not: don't kill him; but let him live to see how his fellow-citizens and *subjects* respect him?

Let the people of the State consider of these facts; we will give them more from time to time.

THE "LIME BED" BRANCH RAILROAD.

The public will be gratified to learn that R. W. Allison, Esq., of Iredell County, has sought and obtained an injunction restraining the Treasurer from issuing, and the Western North Carolina Railroad Company from receiving, S ate bonds to the amount of $80,000, to build a branch Railroad from a point near Catawba Station, on that Road, to the Lime Beds of Dr. Powell and others. If the Bonds for this sum have been issued, then the Railroad Company is required to desist from expending any part of such sum in the construction of the "Lime Bed" Branch, and to surrender bonds to this amount.

This injunction in no way affects the validity of the bonds issued for the construction of the Western North Carolina Railroad. The bonds issued for that Company are as good as any issued under recent legislation, if not better.

The effect of this injunction is to prevent a shameful outrage upon the public, to which we had reference a few days ago. The public has no interest in this proposed branch road, any more than they would have in one to a saw mill or iron works of some private individual, and this whole scheme is the work of the "Ring," intended to benefit a few individuals at the expense of the people of the State.

The facts about this Branch, are about these, as we got them from a reliable correspondent who wrote over the signature of "Burke," some days ago. The act making the last appropriation for the Western North Carolina Railroad Company, provided that $80,000 of the appropriation should be devoted to the construction of the proposed branch Road. The Directors of the Company, at *once*, after the acceptance of the act by the Company, had the line of the Road located, surveyed and let to contract, at the *Engineer's estimate*, without *giving any notice* of such letting, and this contract was approved by the Board; *all the State Directors* voting for approval, and *all* the Directors of *private Stockholders* voting against such approval. Messrs. Vance, Merrimon and McDowell voting against such iniquitous approval, no doubt contributed to the spirit and combination of the "Ring" to exclude these gentlemen from the Board.

We are glad that one man has had boldness and spirit enough to step forward to avert this outrage. We are sure that the people of the whole State, including the people of the West, feel grateful to Mr. Allison for this manifestation of the spirit that ought to characterize every true North Carolinian. If the people would rise up manfully to put down such schemes of fraud every where in the State, much of the villainy now going on would be ousted and great expense would be saved. We say, well done, gallant Allison!

THE STANDARD AND THE COMMISSIONERS.

The public can place very little reliance upon anything the *Standard* says in defence of Radical office holders. Its editor is one of them, and will defend them right or wrong, provided they are careful to get as large a grab as possible out of the public purse. Little Gold does not concern himself with small grabs, with him it is "neck or nothing."

It is not true that the SENTINEL or its correspondents complain of the County Commissioners receiving three dollars per day for their services, or five cents a mile for actual travel to do the work of the Board. We only complain of paying men five cents per mile for distance they have *not* traveled, and which cost them nothing. If the Board, all of them, were fully competent to do the work assigned them, and actually traveled the distance they have charged for, in the service of the Board, no one would complain. Last year the SENTINEL, in arguing against the introduction of the new Township and Court system, urged its expensiveness as a good ground of objection to it. In estimating its expensiveness, it alleged that suitable men as Commissioners, ought to have $1,500 per year, upon the presumption that the many duties imposed upon them would require their whole time. But the *Standard*, as usual, perverts our meaning by its quotation.

The people of North Carolina can, and have a right to complain, and do complain, at the determination of the carpet baggers and scallawags to force upon us the yankeeisms of New England, at an enormous expense, which, however well they might answer in a dense, rich population, are entirely unsuited to a sparse, poor population like ours. The new Court system, the new school system, and the Township system, ought, and must be modified or abolished, as unsuited to our population and means. Our people cannot pay eight or ten times the amount of taxes they formerly paid, to provide offices and place for carpet-baggers, dishonest scallawags and lazy negroes.

Correspondence of the Sentinel.

Editor of the Sentinel:

SIR: I notice in your issue of the 13th, a statement to the effect that bonds were issued by me to the Chatham Railroad Co., notwithstanding a decision of the Supreme Court forbidding the same. This is a total mistake.

On August 17th, 1868, an Act was passed, authorizing the issue of $2,000 000 to the Chatham Railroad Company. No injunction was obtained against this issue, and the bonds were delivered to the Company on October 19th, 1868.

Afterwards, in November, in consequence of representations made by the Chamber of Commerce, in Wilmington, the Stock Board in New York threw out these bonds, and the General Assembly, on December 18th, 1868, passed an act authorizing their surrender, and the issue, in exchange therefor, of other bonds under the December act. In this latter act a special tax was imposed to pay the interest.

In January, 1869, an injunction was obtained against the issue of bonds, under the December act, and on appeal to the Supreme Court, it was pronounced unconstitutional, and the injunction continued until the final hearing of the case.

The injunction in this case has been strictly obeyed by me, and I have moreover refused to issue bonds under other acts, which are within the principle of the decision in the Chatham Railroad case.

I thus declined to issue bonds, $2 000.000 to the Oxford Branch of the Raleigh & Gaston R. R. Co., to Williamston & Tarboro' R. R., and appendages $2,700,000—in all, $4.700,000

The friends of these enterprises, in consequence of this, procured other acts obviating, as it was thought the objections in the first acts, and diminishing the appropriations. Hence, $800.000 were authorized to the University R. R.—$2,000,000 to build a Railroad through the counties of Granville, Person, &c., the same as the Oxford Branch of the R & G. R. R. Co., which was intended to be in substitution of the appropriation to the Oxford Branch, and $850,000 to the Edenton & Suffolk, in substitution for $2,700,000, to the Williamston & Tarboro' R R.

At the June Term last, the Supreme Court decided against the validity of the University R. R. act, and I have applied the principle of the decision to the other mentioned acts. There are two classes of bonds issued to the Chatham R. R. Co., now outstanding; one is the $1,200,000 issue under ordinance of the Convention of 1868, dated April 1st, 1868. These bonds have never been questioned, and are undoubtedly valid; the other is the $2,000,000 issue under the act of August 17th, 1868, dated Oct. 1st, 1868, which bonds were delivered to the Company before any injunction was even talked of. These, since the decision of the Court, I do not regard as valid.

You will see from the foregoing statement that the following appropriations cannot be regarded as a part of the debt of the State, viz:

Chatham R. R. Co.,	$2,000,000
University R. R.,	300.000
Oxford Branch.	2,000,000
Williamston & Tarboro' R. R. and appendages,	2,700,000
Railroad through the counties of Granville, Person, &c.,	2,000,000
Edenton & Suffolk R. R.,	850,000
	$ 9,850.000

The appropriation to the North Western N. C. R. R. Co., in consequence of the decision of the Supreme Court, is $1,400,000, not $2,500,000, as you have it.

The appropriation $115,000 to the Turnpike road from Marion to Asheville is to be paid in cash.

The total amount of new bonds authorized by the General Assembly for Railroads, not pronounced unconstitutional, is about $16,300,000.

Respectfully,
D. A. JENKINS,
State Treasurer.

The authorities of Pella, Iowa, ordered that the trains of the Valley railroad should not pass through that city at a greater speed than six miles an hour, and should duly whistle at all crossings. The President of the road, in revenge, directed his engineers to whistle from one end of the road to the other, a distance of two miles, and great is the perplexity and indignation of the citizens.

Omaha is getting to be "a place" very fast. The ladies of a certain rank sit in the private boxes of the theatre there and drink champagne in full view of the virtuous and plebeian portion of the audience.

It is stated that one guest at Cape May this year, whose party consisted of three persons, and whose accommodations were two rooms, paid the hotel $125 a day during his sojourn (principally for wine, we guess.)

For the Sentinel.

EXCURSION TO MOREHEAD CITY.

MR. EDITOR:—According to notice published in your paper beforehand, and also by hand bills posted in the most conspicuous places in our city, the crowd assembled at the depot at the appointed time, all anxious and ready for the trip to the sea coast. Everything worked in unison. The crowd was composed of our best colored citizens, and by its fair sex ladies. The whistle of the train was the only thing which could have aroused them from their scene of mirth and gayety. At last it came and upon its arrival what news did it bring?—Disappointment to many; for through the telegraph received from the Superintendent of the North Carolina Railroad, many were compelled to suspend their trip on account of the exorbitant price demanded by him after having contracted with the Manager, in person, to allow them to go to the terminus of the Road and return for one dollar. This, of course, caused a delay, but, determined not to be outdone, and intending to risk the trip at all hazards, the Manager, Mr. Bryan Lunn, who has since been called "young Moses," and I think he justly deserves the epithet, resolved to conduct his tribe through the Red Sea of trouble, and bring them back into the dry regions of economy. But for him our pleasure would have been destroyed, our only hopes of visiting the sea shore would have been frustrated and all of our worthy people, who are the bone and sinew of our land, would have been most terribly disappointed.

The cause of such disappointment, had it occurred, might and would have been easily accounted for. Why did the Superintendent of one of our principal Railroads, appointed by men who were elected to office by the vote of our own color, (I mention this because you and I well know that without it they never would have held the positions which they now occupy,) telegraphed the Agent to charge each person 75 cents more than he first bargained for? What were his motives? Self aggrandizement and nothing more. By whom was he elevated to his lofty seat? In behalf of the colored people I ask him. He may keep it soft whilst he possesses it, but he may rest assured that with our consent he will never obtain it again.

Our ride to Goldsboro' was a pleasant one. All seemed gay and lively, and nothing occurred to mar the festivity of the occasion. Good behavior and still demeanor marked the order of the day. Respect seemed to be, and was, the principal characteristic of the trip and every one joined in the same opinion. Our intention was, when we left home, to prove that, although different in color, principle has, and will, and ever shall be our chief aim.

At last we are in Goldsboro. Sorry are we to find so much of the city in ashes. To many of us who visited it before, it seemed unnatural, although our stay was in a certain respect pleasant, to those who had acquaintances it was particularly so, for the kindness exhibited towards them by their friends will never be forgotten, whilst others who were strangers amused themselves by viewing the place. Here "Moses" was a stranger, his children were following him in trouble and hunger. The promised land was before them and all were anxious to view, if not visit it; he could not move, for Greenbacks stared him in the face, and dared him to do so. In the midst of his dilemma who should appear but the Hon. E. R. Stanly, President of the A. & N. C. R. R. Co., who said to him in words of thunder which made the welkin ring, "Fear not Bryan, bring hither thy children, I know how thou feelest, but be not disheartened. Three coaches have I to give thee and if they are not sufficient, one more shalt thou have. Conduct thy children hither and let them be seated, let them not only view, but visit the promised land; tis to them my country in part belongs. What I have power thou shalt not suffer. My friends I never forget."

We are now safely ensconced in our seats and are rapidly whizzing towards Newbern. What a contrast presents itself compared with that at Goldsboro. Now all are certain of the trip and gladness beams in the countenance of every one. The crowd is enlivened by the sweet and melodious airs of the band and all once more is mirth and gayety. Nothing on the route occurs worthy of notice and the shrill sound of the whistle informs us of our near approach to Newbern. Curiosity of course prompts many to see what kind of a place it is and stretching heads out of the windows is all the rage. Finally we are there.

The colored citizens turn out *en masse* and meet us with that kindness and urbanity which has always been the characteristic of the "Elm City." Hospitality was openly and plainly extended to us in the true sense of the word and in a few minutes all felt at home. To them we owe the chief pleasure of our trip, for never did we see any crowd so anxious to please as they were. Pride and conventionality both sunk beneath the quicksands of persuasion and reason completely overcame formality. While it is hard to make any distinction, still I cannot refrain from mentioning the name of Mr. John Randolph, for his kindness bestowed upon us. To him we are indebted for the pleasant dance at "Kimbrell Hall"; for it was through his exertions that it was gotten up. To the citizens generally we tender our sincere thanks and only hope that the time may come when we shall have an opportunity of returning it.

Tuesday afternoon we start for Beaufort, all joyous and merry. The train arrives at Morehead City in due time, and all are anxious to view the water. Rough winds welcome us and bravery seems to ask who will cope with the result. Many embark in the sail boats, for pride prompts them to do so, and off we start. A squall comes up and a severe one too. All seem bold, but before we get one hundred yards from shore, fear gets the upperhand. Through the water we go, the waves rocking our boats roughly. Finally a wave strikes us and the scene changes. Some are praying, some clinging to each other, while others are assuming the air of "don't care," and without any one's knowledge, we are at Beaufort. Safely landed each one hunts his resting place, and all is quiet until morning. At last it arrives and what do we see? Water all around us. Wonder and admiration take possession of all of us. Sailing is the mania and off we start. Fort Macon, of course, is the destination. Over a rough and tempestuous surf irrespective of decision we thrust our lives headlong upon the ocean of chance. Fortune smiles upon us, however, and we arrive safely.

We were very kindly and cordially received at the fort by Brevet Lt. Col. Wilkins, in command, who showed us all the attention necessary to insure a pleasant time. In the name of our party, we, each and every one of us, thank him for the kindness exhibited toward us, and should opportunity ever offer it, he may rest assured that his invitation to visit him will be accepted. Engrossed with the novelty of sailing, the crowd starts for the seashore. After arriving there, nothing would do, after the various searches for shells, which they obtained most profusely, but a dance on the beach. 'Twas truly a ludicrous sight to see them tripping the light fantastic toe in sand knee deep. Dust was flying in all directions, but it made no difference. Frolic was their determination, and they carried it out. After a pleasant sail towards the bar, our party returned safely to Beaufort, very much pleased with the trip.

We amused ourselves the balance of the time alloted us, in walking around and viewing the place. 'Twas not at all prepossessing in its appearance, and, as for hospitality, I do not believe that any of its inhabitants know that there is any such word in existence. Suffice it to say, that at five o'clock we departed for Morehead, glad enough to get rid of its sister City.

Upon our arrival at Morehead we find ourselves much more worsted than we expected. No accommodation for any of us, and what were we to do? Finally, Mr Sprawls, who keeps a fine hotel everywhere, and furnishes his guests with everything free of charge, invited us to partake of his hospitality, and we accepted. But for him, I do not know what we would have done. Each one had his bed—one of the patent kind which requires no making up. We return him our thanks for his politeness and attention.

The young folks amused themselves with a dance at the Macon House, where they spent most of the wee hours of the night. Anything to kill time is pleasant in Morehead.

Finally the time for the departure of the train arrives and many a joyous shout arises as we homeward start. Arriving at Newbern we are compelled to stop, as its citizens will not allow us to go on without stopping and spending the day with them. 'Twas a very pleasant one to all. Visiting friends mostly occupied the time. The young men played Base Ball, in which the Washington Club, of our city, were successful, playing only two innings and scoring 14 to 6. At night Mr. Randolph gave a dance at his residence, which lasted until morning, barely giving the participants time to change their "riggings" and reach the train.

Such, Mr. Editor, is a brief account of our trip. It was a pleasant one, and decidedly successful. Too much praise cannot be given to Hon. E. R. Stanly, President of the Atlantic & North Carolina R. R., and his gentlemanly Conductors, and to the citizens of Newbern, for their hospitality and courtesy. To Mr. Bryan Lunn, the Manager of the excursion, no words can express the praise and encomiums which should be heaped upon him for his gentlemanly and polite conduct throughout the whole affair.

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER.

THE ADVANTAGES of these Spectacles over all others are:

1. They can be worn with perfect ease for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. How to select Glasses. It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. When the eyes ache or pain through the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays, effect a most agreeable sensation and give great relief.

4. These spectacles are scientifically adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain, over work, or premature decay, by Dr. Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. After several years of public practice, adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. M. Bernhardt, to signalize himself from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Opthalmic talent in Raleigh, N. C., and in the Union

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's Spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read, or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character, in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D.,
Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DRURY LACY, D. D.,
Late Pres't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

J. M. ATKINSON,
Pastor of the Presbyterian Church.

State of North Carolina,
EXECUTIVE DEPARTMENT,
Raleigh, March 28, 1866.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

JONATHAN WORTH,
Governor of North Carolina.

State of South Carolina,
EXECUTIVE DEPARTMENT,
Columbia, June 19th, 1866.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours,
JAMES L. ORR,
Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON,
Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

W. K. BOWLING, M. D.

Testimonials similar to the above may be seen at Dr. Bernhardt's office, from the most reliable and well-known gentlemen of the United States, among whom are:

GULLETT'S COTTON GIN.

ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for its sale and would be pleased to fill orders.

New Ads.—"King of all pain," noticed elsewhere.

Thomas H. Briggs advertises his Fall stock of Hardware, consisting of a variety of indispensables for the season.

Richard Brown, colored, cautions every body against meddling with his wife.

A number of articles, prepared for this column, were unavoidably crowded out to-day.

We call attention to the advertisement of Dr. Kierstead's "King of All Pain," which is advertised in our columns to-day. It is highly recommended.

S. S. Convention.—It will be remembered that on to-morrow, (Thursday) the Methodist Sunday School Convention meets in this city. The delegates will meet and organize at the M. E. Church, at 10 o'clock, A. M. Rev. N. F. Reid, D. D., of Greensboro' District will preach at the same Church at night. Other public exercises will be announced from time to time.

Oysters.—The season for these universally popular bivalves have opened in Raleigh. An instalment, the first, we think, of the season, arrived in Raleigh, by the R. & G. Railroad, yesterday afternoon. We are sure they were here—right certain of it. Blair, at the Yarborough House had them; so did Pepper, of the Fayetteville Street Restaurant. We are sure of it, as we have said, and, they were good—seeing is believing—but *eating* is the naked truth.

Blair will please accept our thanks for the nice dish of this palatable luxury, which reached our sanctum exactly at the right time.

We also return our thanks to Pepper for a like favor. A large waiter from there, fixed up in Pat. Nolan's artistic manner, stewed, fried and scalloped—with trimmings "ac cordin" was received. We, all hands feasted sumptuously last night.

Dr. Bernhardt's Spectacles.—Almost all our near sighted friends are availing themselves of the opportunity of procuring "helps for the eyes," from the varied stock of Dr. Bernhardt, at the Yarborough House. We saw a lady, yesterday, who has recently procured a pair of his Australian crystals, who says she would not part with them, without a chance of getting others, for a small fortune. We have seen no one yet who complains of a failure to be suited who have obtained glasses of this eminent optician.

We learn that A. H. Galloway, of New Hanover, and Capt. J. Q. DeCarteret, of this City, will address the people at Sorrell's Store sometime (hereafter to be designated,) upon the tax question and kindred subjects, pertaining to the revenue of North Carolina.

Additional Accommodation.—We learn that a "fast freight train" has been started on the North Carolina Railroad, leaving Charlotte at 7 o'clock in the morning and arriving at Raleigh at 8 o'clock in the evening; and leaving Raleigh at 7 in the morning arrives at Charlotte at 8 in the evening; carrying a coach for the accommodation of passengers. This is really a great convenience to persons going from one of these points to the other, or from one place to another between the two, as they have day time for travel the entire line, each way.

We wish Mr. Post Master General would let the mails go on this train, it would save us a good deal of trouble.

Returned.—Our old friend, but young fellow citizen, "Buck" Tucker, who has been in New York for a couple of months, selecting and laying in a stock of goods for the Raleigh market, and his brother "R. S." who has been on a summer excursion to the Northern States and Canada, have both arrived in the city, ready for the Fall and Winter campaign, and apparently in the enjoyment of health sufficient to "stand the pressure."

The Louisiana Equitable Life Insurance Company of New Orleans.—This is one of the very best companies in the country. It has the endorsement of Bishop Wilmer, Gens. Beauregard, Hood, Harry Hays and the leading men of New Orleans. General Beauregard says: "Its Officers and Directors have been selected from our most reliable and intelligent citizens.

Instead of sending $40,000,000 annually North, our citizens can find better companies at home.

Ladies suffering from any disease peculiar to their sex, can be restored to health by using Dr. Lawrence's "Woman's Friend." It purifies the secretions, and restores the system to a healthy condition.

Aurora Borealis.—On Monday night, or rather, Tuesday morning, about 1 o'clock, a very bright and beautiful aurora borealis was visible, extending from about north-east to north-west, and rising some five or six degrees above the horizon; at the centre, perhaps to ten degrees. We suppose few of our readers saw it, as most of them were, about that time, "safe in bed and snoring."

Butter.—Of all the markets we ever tested, we believe the Raleigh market can boast, as a general thing, the meanest, stickiest clammiest, most unsavory butter. Why this is so, we cannot tell, unless it is because the people don't know how to churn and manipulate it. (Yours, my good madam, who read this, is about the only good butter that comes to market—so, you see, we are not hinting at you!)

We do hope the Agricultural Society will procure the services of some experienced Dairyman, or Dairy woman, who really knows something about butter making, and can tell it in a concise and understandable way, to prepare and read an essay at the State Fair, on this subject, and then have it printed in handbill form and distributed through the market twice a week, from the 1st of April to the last of May, next year.

We throw out the hint, gentlemen; and hope you will take it into consideration.

The Maine Election.—The telegraph brings the news of the election of Chamberlain, Governor of Maine, by about 5,000 majority, against 20,000 at the last election.—No one imagined that this State would elect the Democratic candidate, but the reduction of the Radical majority was greater than was expected. New England, where a large number of untaxed bonds are held, and where the people are growing fat on government pap, is not expected to vote with any party that aims to secure the greatest good to the greatest number.

Yom Kipur.—From the going down of the sun yesterday, to his going down this (Wednesday) evening, is observed by our Jewish fellow citizens as a day of fasting and prayer, called "Yom Kipur," or day of atonement.

Masonic.—Raleigh Chapter, No. 10, R. A. M., will hold a Convocation at Masonic Hall, this (Wednesday) evening, at the usual hour, for work. Companions take notice. Visitors in the city are invited.

The anniversary of the Missionary Sunday School was held in the Methodist Church at Asheville, on Friday evening last.

We learn from the Asheville *News* that the work on the Blue Ridge Railroad commenced at Dick's Creek Tunnel on the 1st inst., and will be rapidly pushed ahead.—It is in excellent hands, from the President down, and it is determined to complete the enterprise in two years.

Incendiarism and Highway Robbery.—Just as we were going to press, says the Asheville *News*, news reached us that on Sunday night last a Barn and Stable at Old Fort was set fire to and burned to the ground. Two fine mules and the fine saddle horse of Mr. G. F. Davidson were in the stable and perished in the flames. During the fire a store was broken open and robbed of money and several articles of goods. On Wednesday morning about 10 o'clock, a wagoner, while on the Morganton road between the top of the Blue Ridge and Old Fort, was attacked by several negroes and robbed of about $30 in specie, and a sum in greenbacks and other property. Full particulars of the above have not reached us. A party has been organized and started in pursuit of the scoundrels.

The Concert given on Wednesday evening last, by the young ladies of the Episcopal Church, at the late residence of Rev. G. T. Wilmer, was a handsome and decided success. A very large audience assembled, comprising the *elite* of Asheville, who enjoyed the entertainment with much zest. So says the Asheville *News*.

We learn from the Charlotte *Observer*, that Mr. M. L. Wilstoe & Co., sold at Auction on Saturday, the store house and lot in front of the Presbyterian Church, known as the Moody property, for $2,810.00, cash—Mr. Wm. Gray being the purchaser. The lot measures about 35 feet on Trade, and runs back half way to Fourth-street.

A little daughter of Mrs. Burgess fell down the stairway to the floor of Mrs. Correll's Milliner shop, on Saturday, and was severely shocked, but not, we are glad to learn, severely hurt. So says the Salisbury *Examiner*.

The Charlotte *Democrat* says: The authorities of the N. C. Road and the Western N. C. Road propose to erect, at Salisbury, a large passenger shed, with rooms, for the accommodation of travelers. A shed at the Charlotte Depot is badly needed, and we hope the Char. & S. C. Railroad will join the the N. C. Road (as we understand it has been requested to do) and erect a suitable building for the accommodation of travelers and those having to be at the Depot on the arrival and departure of trains.

A real estate agency in Alexandria, Va., has made a sale to Northern capitalists of three quarters interest in 500,000 acres of land lying in the counties of Logan and Wyoming, in Southwestern Virginia, belonging to Mr. Robert Lawson, of Wythe county.

The election in Wyoming Territory last week passed off quietly. The entire Democratic ticket is elected. Hon. S. P. Nuckolls, Democrat, is elected to Congress. He is a New Yorker, who came to the Territory in 1867, and is a leading merchant of Cheyenne.

The president of the Union Pacific and the vice president of the Central Pacific railroads have gone West to settle the question of the final junction of the two roads.

THE UTLEY
COTTON PRESS.
A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS astonishes all who see it, and the more so that a power so simple should so long have been unappropriated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS. H. BRIGGS. All are invited that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

Pretty Women. A comparatively few Ladies monopolize the Beauty as well as the attention of Society. This ought not to be so, but it is; and will be while men are foolish and single out pretty faces for companions.

This can all be changed by using Hagan's Magnolia Balm which gives the Bloom of Youth and a refined sparkling Beauty to the Complexion, pleasing powerful and natural.

No lady need complain of a red, tanned, freckled or rustic Complexion who will invest seventy-five cents in Hagan's Magnolia Balm. Its effects are truly wonderful. To Preserve and Dress the Hair use Lyon's Kathairon. aug 28. 1m

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker,	$18,54
Equitable,	17,44
North America,	21,18
Brooklyn,	21,09
Universal,	27,94
John Hancock,	18,27
The National,	63,48
The Ætna,	19,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It issued more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 562 policies, received an income of seventy-eight thousand dollars and possessed net assets amounting up to something over two hundred and eighty-one thousand dollars; it had last year, 1868, it granted 13,237 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, accurately and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

"SLAVERY IS DEAD, BUT TREASON LIVES."

This is the language used by Forney in one of his leaders some time since. Never were truer words uttered than these. Truly "slavery is dead, but treason lives."—Treason lives in every Radical member of Congress who violates his oath to support the Constitution every time he casts his vote; it lives in the reconstruction acts and military despotisms established by congressional legislation. It was alive in the Republican party before the late war broke out, when it nominated a sectional candidate, on a sectional platform, and that "this country could not exist half slave and half free." It manifested its vigor and its virulency when, through the columns of its leading organ, the *Tribune*, it denounced the flag as a "flaunting lie, and hate's polluted rag," and called the eagle, the emblem of our prowess, "the vulture of the Union," and with Wendell Phillips agreed that our Constitution was "a league with hell and a covenant with death."

And "slavery is dead," but when it died it transferred the manacles upon its wrists and ankles to the white laboring men of the North. "The slave aristocracy," as it was so flippantly called, is dead; but that was a self-sustaining, self supporting aristocracy; that was an aristocracy that paid to the North millions in gold annually, and during the last decade before the war furnished exports to the value of over one thousand millions to swell the wealth of the country.

The slave aristocracy is dead, but it has been succeeded by an aristocracy of Northern bondholders, "who toil not, neither do they spin; yet Solomon in all his glory was not arrayed like one of these." These successors of the slave aristocracy receive their interest in solid gold, while their serfs and bondmen—the poor laboring classes of the North—must be contented with the depreciated rag currency of the country.—These successors to the self-supporting, wealth giving aristocracy of slavery pay no taxes but impose the burden on their white slaves, who are mere "hewers of wood and drawers of water" for these worse than Egyptian taskmasters.

When Hood wrote that wonderfully suggestive poem of his, with its wild, touching burden of,

"Work! work! work!
From merry chime to chime,
Work! work! work!
As prisoners do for crime."

And told of the woman who

"Sits in unwomanly rags,
Plying her needle and thread,"

he was simply picturing the condition of English serfs under the grinding influence of a huge national debt and the tyranny of a bonded Aristocracy. The artizans and laborers, now out of work, afford an opportunity to some American Hood to write a song of labor here, with even a more touching refrain than that of the English poet. He could tell his countrymen "why bread should not be so dear," because "flesh and blood had been so cheap."

Yes! "slavery is dead, and treason lives," but it was negro slavery that died, in order that white slavery might live. That creature Forney, and his co conspirators against the Constitution and the Union, have given the freedom of laziness and the privilege of starvation to the millions of former well to do slaves; but have imposed their cast off fetters upon the limbs of white men here at the North. Let our white laboring men remember at the ballot boxes next Fall that

"He who would be free
Himself must strike the blow."

New York News.

SHORT RULES IN RURAL ECONOMY.—Paint all tools exposed to the weather, and it with a light colored paint, they will not heat, warp, or crack in the sun.

Dip well seasoned shingles in a lime wash, and dry them before laying, and they will last much longer, and not become covered with moss.

Dip the ends of nails into grease, and they will drive easily into hard wood, where they would otherwise double and break.

In screwing nuts into any part of machinery in cold weather, be careful not to heat them first with the hands, or they will contract after being screwed on tight, and become immoveable afterwards.

In plowing or teaming on the road in hot weather, always rest the horses on an eminence, where one minute will be worth two in a warm valley.

In setting out young orchards, always register the varieties immediately in a book, where they may be referred to in a few years, when the trees commence bearing, and the labels are lost, and names forgotten.

In laying a garden for fruits and vegetables, place everything in drills or rows, so that they may be cultivated by a horse, and thus save the expense of hard labor.

When board fences become old, and the boards begin to come off nail upright facing strips upon them against each post, and the boards will be held to their places, and the fence last several years longer.

DU CHAILLU.—He is thus sketched by a New York correspondent:

He is a lady killer. We thought him a hunter of another sort. He commits poetry, waits for a moonlight night and then lets its gush. He does it well and effectively. He dresses beautifully. He worships flowers, and consequently decks himself.—Why shouldn't he? His moustache is lovely. His eyes are dreamy, and he lets the lids droop, oh, so sweetly! He wanders by the sea and takes up snatches of the Italian boy's ditty, and warbles them into willing ears. He tells long stories after the Othello fashion into every crinolined and pantered Desdemona who is either pretty, rich or *distingue*. Desdemona looks at him, and sees the size of his boot, the diminutiveness of his hand, the narrowness of his shoulders, the brevity of his attitude, and don't believe his romances. She wonders if a burglar would be afraid of him; concludes not, and consequently she don't say that she wished "heaven had made her such a man."

LOST.—A VERY FINE, LARGE GOLD RING. The finder will be liberally rewarded by leaving the same with me.

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissue s lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white co t. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are affected with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the Liver instead of COPIOUS PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellow-ish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its WORK KINDLY, SURELY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, (mental and physical) are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dulness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Imposency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.
